

provisions
FOR EVERY DAY

enhancing workplace experiences through health & wellness

Provisions delivers innovation in food and workplace services, enhancing your workplace culture, driving productivity and collaboration today and tomorrow.

We help clients to shape their total workplace ecosystem and how this impacts the health and wellbeing of their employees through food and hospitality services.

provisions delivers employee wellness and engagement solutions

Our new suite of wellness and support services is designed to enhance your company culture, whether your team are in the office, at home, or both. Always, with personal safety and security in mind.

As working environments evolve, so do the needs of the modern-day employee. Provisions takes the traditional pantry service offer into the workplace of tomorrow through a flexible food and support service solution that enables you to build the program that best delivers the workplace culture and engagement you are looking for.

features and benefits

- Safe environments for your staff
- Mental and physical wellbeing benefits driving productivity
- Increased employee engagement
- Contactless and low touch solutions

food services for the new workplace

micro-markets

A tailored workplace market offering contactless experiences for food, drink and convenience items with mental and physical wellbeing at the heart. But don't worry, you can still have the treats too! Our modular design means we have a micro-market solution to fit any space and can offer your teams everything from quick grab and go snacks to full ready-to-eat meals, beverages to great barista style coffee.

office snacking

Curb the afternoon crash, give your brain a boost, nourish your body or just treat yourself. From simple pantry staples for your kitchenettes such as tea and coffee, to the widest range of grocery products and snacking staples, your staff will never go hungry. Provisions is proud to offer full-service snack management programs including budget management, product recommendations, stock rotations, sanitation and more. Or we can simply deliver the products to you!

snack boxes delivered

Keep your company culture alive for teams working remotely with customisable snack boxes delivered to their home with all the benefits they would find in their office kitchenettes. With different sizes, snacks ranges and styles available to choose from and options for regular subscriptions your teams can share the same great experience whether in the office, or not.

employee engagement programs

Driving the experience economy, our partnerships with industry leading organisations such as StriveStronger and Farmwall, along with our own internal programs will bring wellness to life for your employees.

support services for the new workplace

hygienic cleaning

Industry leading hygienic cleaning solutions for your workplace, specialising in anti-viral practises through our globally recognised SafeSphere program as part of Compass Group Australia.

Contactless digital solutions

Expertly delivered services with no contact needed between our staff and yours to enhance personal safety, speed of service and overall experiences. Ask us today about how innovations in digital technology can enhance hospitality services for you and your teams from contactless self-serve payment systems to digital ordering portals, capacity tracking systems, heat mapping technology and more.

kitchenette design

As part of the wider Compass Group Australia, Provisions works with industry leading experts in delivering bespoke design and fitout services in hospitality spaces to complement our food and support services. We are experts in enhancing company culture through employee engagement, encouraging workplace collaboration and managing social distancing requirements. Talk to us about your vision today.

management platform

Enhanced systems for rigorous field-based services execution management to deliver industry leading safety, hygiene, and standards across all services so you can rely on us for all your employee wellness and engagement needs.

experiences for the new workspace

30 day boost

Give your teams a boost with mental, emotional and physical wellbeing. In partnership with StriveStronger, give your teams 30 days to boost mental, physical and emotional wellbeing through the innovative digital program featuring content and engagement from leading industry experts in the field of psychology, nutrition and leadership to boost productivity and wellbeing in the workplace.

nourished health & wellbeing talks

Enhance employee health, wellbeing and self-sustainability, through the simple act of growing food at home or in the office. Get Growing is an urban farming program for your office or teams working from home designed to build a sense of community, personal sustainability and increase health and wellness.

teaching kitchen

Let our team of executive chefs, food leaders and inhouse nutritionists inspire and engage your teams through bespoke health and wellbeing talks in person or online. Contact us today (straight to contact us page to fill out form).

employee engagement programs

A great team building activity, the teaching kitchen is where you can learn to cook a special meal, how to use different ingredients, brew the perfect cup and more either in person or online with our team of culinary experts.
